
GK24 Venus Homepage

Posted by jenzen - 2010/01/27 14:20

I made a free homepage for my GK24 Venus via my Google account/G-mail
You can implement calender, Picasa webgallery, insert photos, Google maps and documents (via Google Document
) ,text, - without any webdesigner-skills, via the userfriendly
Interface. The homepage is in Danish for now (maybe I can insert Google translate..)
<http://sites.google.com/site/gk24venus/Start>

- Hope to see some more webpages and GK24 Gallery's for inspiration and good ideas B)

You can create your own free Google account here:
<https://www.google.com/accounts/NewAccount>

Regards
Jenzen Venus Denmark
